

Online registration tips

- If you've been a member with us before, please use the same parent name (typically the mother's first and maiden name), the same home phone number, and same home address we would have on file. That way the system will recognize you and your children.
- Only classes that your child is age-eligible for will appear.
- You can put yourself on a wait list through online registration.
- Registration is not complete until payment has been made.
- The \$20 GO/Insurance fee will be charged once a year, to each child, from July 1st to June 30th.
 - To ensure you're not charged twice in one year, please use the same information the office has on file on your child (date of birth, name, etc) so the system will recognize your child as the same one who's already paid.
- If you're registering late, the online system is set up to automatically pro-rate the class you're registering for, if there's still space.

If you've had a change of address, or there needs to be a correction in name spelling, etc, please email the office at ogc@rogers.com

If you have any problems or questions about our online registration, please email at ogc@rogers.com .
