

Ottawa Gymnastics Centre receives the Community Building Fund - Operating Grant from the Ontario Trillium Foundation

OTTAWA - The Ontario Trillium Foundation (OTF) is investing in non-profit organizations that have been impacted by COVID-19 to support their recovery efforts. The OTF *Community Building Fund - Operating Grant* supports non-profit organizations to rebuild their capacity and resiliency, deliver programs and services in innovative ways, and build healthy and vibrant communities across Ontario.

Throughout the past two years, many community organizations have closed due to the financial burdens created by COVID-19, including lost revenue and increased facility costs. Unfortunately, the Ottawa Gymnastics Centre (OGC) has experienced similar challenges while attempting to continue to provide safe and high quality of service for our community.

The Ottawa Gymnastics Centre is excited to receive \$52,000 from the OTF *Community Building Fund - Operating Grant* to support continuing to satisfy rent and fixed facility operating costs, delivering experiences, and providing gymnastics programming to the community.

The OGC is grateful for the assistance provided by the Ontario Trillium Foundation as the facility continues its mission to foster enthusiasm for gymnastics, while building foundations for sport and life. Additionally, the OGC is eager to maintain their values of quality, safety, and integrity, as they rebuild program capacities and reconnect with the community with support from the *Community Building Fund - Operating Grant*.

We appreciate the opportunity and support that the Ontario Trillium Foundation has provided the Ottawa Gymnastics Centre.
